

ESENTIA APPOINTS PATRICIA FID MARTIN HEAD OF INVESTOR RELATIONS & CAPITAL MARKETS

Mexico City, September 16, 2026.- Esentia Energy Development, S.A.B. de C.V. (BMV: ESENTIA) (“Esentia” or the “Company”) today announced the appointment of Patricia Fid Martin as Head of Investor Relations & Capital Markets, effective September 11, 2026. Ms. Fid Martin, previously Senior Director of Structured Finance and Financial Planning at the Company, will report to Stephen Griffiths-James, Chief Financial Officer of Esentia.

In her new role, Patricia Fid Martin will lead Esentia’s Investor Relations and Capital Markets strategy, being responsible for the Company’s relationships with institutional investors, analysts, investment banks and rating agencies, as well as its access to the debt and equity capital markets, including debt structuring and equity issuance. She will also be responsible for strengthening Esentia’s positioning and visibility with the international financial community, broadening and diversifying its investor base, and deepening its relationships with capital markets participants, in support of the Company’s evolution and growth strategy.

The appointment is part of a broader reorganization of Esentia’s Finance function, aimed at strengthening the Company’s capabilities to support its next stage of growth, broaden and diversify its access to the capital markets, and continue building its presence with the international financial community. This evolution reflects Esentia’s growing scale, its increased participation in the international markets and its strategy of continuing to strengthen its positioning among institutional investors and other key capital markets participants.

As Senior Director of Structured Finance and Financial Planning, Ms. Fid Martin led, together with the CFO, the structuring and execution of the Company’s US\$2.0 billion senior unsecured notes offering in the international markets in May 2026, which received investment-grade ratings, and participated in the Company’s initial public offering on the Mexican Stock Exchange in November 2025.

“Patricia has been at the forefront of the financial execution of the transactions that transformed Esentia’s capital structure over the past year. Her deep knowledge of the Company and her capital markets experience will be instrumental in strengthening our relationship with the international financial community, broadening our investor base and supporting Esentia’s next stage of growth,” said Stephen Griffiths-James, CFO of Esentia.

About ESENTIA Energy Systems

ESENTIA Energy Systems is a leading energy company in Mexico specializing in the transportation and commercialization of natural gas. With more than 20 years of experience, we develop infrastructure projects that drive economic growth and expand access to energy, contributing to Mexico's sustainable development. We operate Mexico's largest interconnected natural gas pipeline system, delivering reliable and cost-effective natural gas from Waha, Texas, to the central region of the country and its major industrial hubs. At ESENTIA Energy Systems, we operate under the highest safety standards and maintain a strong commitment to sustainability and to the communities where we operate.
